Universal Sound Processor

The new 48-bit sound processor from Pioneer allows users to optimize the sound quality of their factory-fitted audio system. It not only adds clarity to the stock system's sound, but it also gives various sound tuning options to the user. All the audio settings can be intuitively controlled by the smartphone.

Key Features of the Sound Processor

- MOSFET 50W x 4 Amplifier
- Hi-Volt RCA preouts x 3 (4V)
- Time Alignment
- 13-Band Graphic Equalizer (Preset and Custom EQ)
- 3-way Network Mode
- Speaker level (db) setting for each speaker
- Crossover setting (HPF, LPF & Slope adjust)

Upgrade the sound stage in your car with the existing factory-fitted stereo.

Easy installation without any wire cutting in-car. No battery connection required too.

Easy set-up through smartphone.

Compact size can fit anywhere.
