SMART UNIT RECEIVER

SMARTER THAN EVER

Pioneer

Introducing SDA-835TAB

Easy detachable multi-purpose tablet

8" Capacitive Touch Panel

Genuine Android™ OS

2GB RAM/16GB Memory
Expandable upto 128GB

Detach from car, instantly making a tablet.

This new Pioneer smart unit receiver can be used inside the car as a complete infotainment device or it can be easily detached & used from rear seat, outside of the car. Use as a tablet in a variety of situations, from business to leisure, or for kids. This is the perfect device for those who prefer a lifestyle that is smart and efficient.

8 -inch Car AV Receiver

The large 8-inch monitor makes viewing maps easier and watching videos more enjoyable. Get the most of out of its tablet-like functionality - detach from car and turn vertically to make using social media and web sites easier, change to a horizontal orientation to watch videos. Since the tablet has its own power supply, it can be turned on without having to start the engine.

Genuine Android™ OS

The Smart Unit Receiver is equipped with Genuine Android OS.

Best in class audio quality

We've adopted Pioneer car audio technology that has been refined over the years. Listen to music and videos with Pioneer quality sound. Connect to the receiver and play compressed audio with the Advanced Sound Retriever for high sound quality that comes close to that of CDs. Also fine-tune your preferred sound with the 13 Band Equalizer.

Listen to music in the optimal environment, even in your car.

Heat & Vibration Resistant

Unlike ordinary tablets, this one is designed to withstand harsh environments in the car relating to temperature and vibration. The Smart Unit Receiver has passed rigid heat resistance tests (14 ° F to 140 ° F) and vibration tests (8 to 200 Hz) conducted by Pioneer. Go where you want to go, whether it be a snowfield or a rocky mountain path.

Safety & security

The device can connect to universal rear-view camera. By changing the shift to rear, the rear camera footage automatically displays. It can also be connected to optional parking sensors (ND-PS1). Experience car safety features that don't come with just any ordinary tablet. The detachable function of tablet also acts as an Anti-theft feature.

Variety of Apps for Entertainment & Navigation

Supports streaming services like YouTube™, Spotify®, and more. Enjoy your favorite movies and music with Pioneer sound quality. Have more fun on your drive by streaming music, or watch videos while stopped. Detach and entertain kids riding in the back with their favorite content - the uses are virtually limitless.

Supports Google Maps™ and other navigation apps. Drive through new places while traveling with peace of mind since navigation starts directly from location information you find on websites. Experience seamless navigation when friends or colleagues send a destination via text message that automatically starts navigation.
